2 Permanent Waterproof Barrier

SUPERPRO provides a permanent waterproof barrier preventing water from entering the foundation wall. It's highly elastic properties allow for expansion and contraction of the foundation, bridging typical wall cracks with ease.

3 Instant Set - 1 Second

SUPERPRO's coatings are a highly advanced instant set water based technology that sets firm in one second. This allows application to almost any thickness. This reduces material waste and ensures the coating is consistent from top to bottom. It's Amazing! Go to superprocoatings.com and watch "The Blob" video.

4 SUPERPRO Quality Control

- To ensure your investment is protected to the highest standards, **SUPERPRO Coating's** manufacturing facility and formulas are inspected quarterly by a world wide group of testing laboratories with ISO certification.
- Installers of **SUPERPRO Coatings** complete a Certified Training Program.
- **SUPERPRO** spray pump systems are manufactured and calibrated by **SUPERPRO**.

5 Environmentally Friendly

The **SUPERPRO** family of products are non hazardous to our environment or the public when used as per the instructions. **SUPERPRO** products do not leach or gas off volatile organic compounds.
